

OREGON21 Prospective Team Training Camp Questionnaire

This questionnaire is designed to help give interested communities an idea of all of the elements that should be considered when seeking to host a training camp in advance of the 2021 IAAF World Championships. The responses should reflect the details of a developing plan to successfully host a small, medium or large track & field team. Visiting federations will each have different needs – not all require each of these elements, but the information below will help them determine if your community could be a good fit for their respective teams. Please read the FAQs under the Team Training Camps tab on this site before completing the information below.

Ideally, this form will be completed in coordination with the individuals, institutions and service providers that you intend to use. Please submit the completed questionnaire once you have accurately addressed each of the questions. Information provided in the form will begin being shared with international federations and team leaders as early August 2017.

Please direct all questions as well the completed form to our Director of Team Services at: Sasha@gotracktownusa.com
